SUMMARY

A creative and inquisitive Information Technology scholar with experience in cloud services, web development, and content management. Skilled in AWS, Databricks, Python, Java, and Agile frameworks, with a passion for continuous learning and professional growth. I aim to contribute to innovative solutions that bridge today's society with the technology of tomorrow, while continuing to expand my technical expertise and professional foundation.

PROJECT EXPERIENCE

Summer 2022

G- Code Web Development

Boston, MA

Created a website designed to address environmental issues and the extinction of elephants.

- Designed and developed an environmental advocacy website using HTML, CSS, JavaScript, and GitHub.
- Assumed lead design role; structuring code architecture and managed Git repository.
- Focused on responsive, accessible, and user-friendly UI design using Visual Studio Code to increase engagement.

Summer 2025

Nationwide

Columbus, OH

Designed and managed a Jira-based IT support workflow simulation to gain hands-on systems analyst experience.

- Logged and tracked over 15 support tickets: login issues, UI bugs, and feature requests; implemented a Kanban board with real-time statuses updates.
- Documented resolution steps and analyst decisions, simulated cross-functional workflows and user communication.

WORK EXPERIENCE

Summer 2025 - Present

Nationwide

Remote

Student Worker Cloud & Data Services

- Supported Marketing and Cloud Engineering teams by addressing ad hoc data and service requests.
- Maintained and monitored deployment pipelines for Databricks data workflows and AWS-based services.
- Managed and updated AWS configuration settings across environments to support secure and scalable operations.
- Collaborated with cross-functional teams in Agile ceremonies, gaining exposure to industry-standard software development practices.
- Developed foundational skills in Python, SQL, AWS, and DevOps while applying best practices in cloud infrastructure management.

Summer 2025

Nationwide

Columbus, OH

Cloud and CMS Intern – Marketing Content Management

- Collaborated with application teams to migrate web content from Contentful (API-first CMS) to Tridion Digital Experience Platform.
- Participated in Agile ceremonies including daily stand-ups, retrospectives, and sprint planning to support team delivery.
- Contributed to requirement documentation and testing processes for validating successful CMS migrations.
- Gained experience using Microsoft Forms, and cloud-based collaboration tools.
- Supported web content delivery for 2025 marketing initiatives and showcased deliverables through Show & Tell presentations.

June 2021 – May 2024

Nina's Hair braiding

Greensboro, NC

Project Manager

- Managed contracts with vendors and suppliers by assigning tasks and communicating expected deliverables.
- Technical proficiency in Office 365 software and customer service software to improve scheduling and client engagement.
- Led team in the successful implementation of a new ERP system, resulting in a 75 percent increase in efficiency and a \$1700 reduction in operating costs

March 2020 – August 2021

AGL Global Logistics

Greensboro, NC

Dispatcher

- Utilized dispatch and logistics software to manage routing and compliance.
- Maintained accurate transportation records and provided real-time customer support.
